

**PBS-Kansas Working Action Plan**  
**Draft for Review**  
**July, 2009**

**Goal 2 Develop standards and framework for PBS implementation evaluation**

Objective	Actions	Who	Development Target Date	Evaluation Data Collected & Criteria Met	Evaluation Data Summarized and Presented	Completed
1. Review existing fidelity information and other materials (e.g., including documents such as Fixsen et al., 2005, "What Works" Briefs (SOEFL), etc. and create a resource on the website that describes the essential features of PBS implementation using a 3-tiered prevention model with examples from different systems and links to help learners find resources.	*Schedule a meeting to review current PBS-Kansas documents, fidelity of implementation research, and other documents and create an action plan for designing resource materials that guide implementation of a 3-tier model					
	*Create a first draft to share with PBS-Kansas members that will be placed online					
	*Discuss what implementation examples exist for different populations (e.g. early childhood, school-wide PBS) and review current resources already available on pbskansas					
	*Send out a request for experts to review materials and provide guidance on how to proceed with the information and with policies for placing exemplars online					

Objective	Actions	Who	Development Target Date	Evaluation Data Collected & Criteria Met	Evaluation Data Summarized and Presented	Completed
2. Create PBS-Kansas policies for designating which exemplary stories and examples from Kansas organizations would be placed online. Decide how PBS-Kansas will address issues related to individual marketing and advertising.	*Use information gathered from expert review of fidelity of implementation guidelines to draft policy guidelines					
	*Share a draft of policy guidelines with PBS-Kansas members and revise					
	* Place guidelines online					

3. Assess Standards of practice indicators for a variety of programs using PBS to delineate good exemplars to put on the website	*Create a committee and/or review process for deciding which exemplars will be placed online (also based on the policy in Objective 2)					
	*Present results to PBS-Kansas members for final decisions					

Objective	Actions	Who	Development Target Date	Evaluation Data Collected & Criteria Met	Evaluation Data Summarized and Presented	Completed
4. Organizations interested in improving fidelity of PBS implementation and outcome evaluation measures are able to access trainings and info about how to <a href="http://www.pbskansas.org">www.pbskansas.org</a> .	*Discuss how the website will be redesigned to emphasize the fidelity of implementation resources and create an action plan for placing materials online					
	*Create a draft website page with new edits prior to posting online					
	*Create a plan for evaluating the effectiveness and use of the materials					

Objective	Actions	Who	Development Target Date	Evaluation Data Collected & Criteria Met	Evaluation Data Summarized and Presented	Completed
5. Evaluation data are summarized across systems and presented (e.g. districts implementing school-wide PBS, adult service organizations presenting Tier 3 in aggregate)	*Invite current PBS-Kansas members who provide training and technical assistance to a series of meetings where each group/person will present de-identified evaluation data					
	*Create an action plan for summarizing data across projects					
	*Present results of meetings to PBS-Kansas members in a power point presentation and discuss next steps					
	*Organize a document summarizing PBS evaluation data
